Victorian® Single-handle Kitchen Faucet  
Shown in Chrome

## Delta®. For what matters most.

There's a lot of technology that goes into making a faucet. But it takes smart design to make it work for you.

That's why each product we manufacture for the kitchen, bath and shower integrates thoughtful features and functions that make a difference in everyday life—from how easily it installs to how it performs and lasts over time. Because technology only matters—if it matters to you.

# Delta DIAMOND™ Seal Technology No leaks. No lead.\* No worries.

DIAMOND Seal Technology is the revolutionary water delivery system that combines a durable DIAMOND™ valve with Innoflex™ PEX waterways.

*Diamond-embedded disc*

\*Delta Faucet Company's DIAMOND Seal Technology is an exclusive new water delivery system that eliminates water's contact with potential metal contaminants once water is inside the faucet. The DIAMOND valve is an integrated ceramic valve cartridge featuring one ceramic disc and one diamond-embedded disc. The diamond-embedded disc constantly polishes the ceramic disc, preventing buildup of calcium and mineral deposits and ensuring smooth, consistent operation of the handle over the life of the faucet.

### What DIAMOND Seal Technology means for your new Delta faucet.

**LEAK-FREE** The threat of leaks is all but eliminated thanks to the exclusive one-piece supply lines, DIAMOND valve and no dynamic seals.

**LONGER LASTING** DIAMOND Seal Technology is forever. Our DIAMOND valve is built to last ten times longer than the industry standard.  
Industry standard based on ASME 112.18.1 of 500,000 cycles.

**LEAD-FREE** Once inside the faucet, water is not in contact with potential metal contaminants.

**LESS HASSLE** All the parts needed for installation are in the box. All you add is a wrench and screwdriver. No risers required.  
Includes 3/8" stop connections

## Making every drop count.™

As a company that delivers water every day through more than 150 million faucets worldwide, Delta Faucet Company provides products that address today's water conservation concerns as well as water purity and accessibility. These smart water delivery solutions maximize water efficiency and the life span of the products, without sacrificing the comfort and convenience of the user experience.

Delta Faucet Company sustainable products are designed to be:

### Efficient

Increasing water efficiency to reduce the water consumption in a home or commercial structure.

### Pure

Utilizing exclusive waterways that prevent water from coming in contact with potential metal contaminants that can affect water quality and taste.

### Sustainable

Longer lasting and manufactured using environmentally friendly processes to preserve and maintain our natural resources.

### Delta Faucet Company maintains sustainable commitments through the following associations:

#### WaterSense® †

As a WaterSense partner, Delta Faucet Company is committed to working with the EPA to encourage efficient use of water resources and actively protect the future of our nation's water supply. WaterSense labeled products use about 20% less water and perform as well or better than their less efficient counterparts. Delta Faucet continues to move towards all of our lavatory faucets meeting WaterSense certification by the end of 2008.

#### USGBC/LEED® ††

The U.S. Green Building Council (USGBC) developed the Leadership in Energy and Environmental Design (LEED) Green Building Rating System™ to provide a national standard for what constitutes a sustainable building. A total of five points are available for water efficiency for LEED-New Construction.

#### NAHB

Our products can help builders meet Model Green Home Building Guidelines for water-efficiency in the home as established by the National Association of Home Builders (NAHB).

#### Environments for Living® Certified Green

A Masco Corporation initiative, this program combines concepts of building science with a Limited Comfort Guarantee and Limited Heating and Cooling Energy Use Guarantee, to deliver homes that are built to higher, sustainable standards.

#### Canadian Green Build Council

Canadian Green Building Council (CaGBC) is the leading national industry organization advancing green building practices for livable communities. The CaGBC represents 1,600 member organizations involved in the design, construction and operation of buildings. The Council implements the LEED® Green Building Rating System in Canada.

† WaterSense and the WaterSense logo are registered marks of the US Environmental Protection Agency.  
 †† LEED and the LEED Certified logo are the registered trademarks of the US Green Building Council.

# Kitchen Collections

# Pilar™ Pull-Down Kitchen Series

Pilar is a distinctive kitchen faucet that coordinates with any décor and provides all the convenient functionality Touch<sub>2</sub>O™ Technology has to offer. Pilar also features Delta's exclusive DIAMOND™ Seal Technology for worry-free, leak-free, lasting durability.

Finishes include:

980T-SSSD-DST  
Shown in Brilliance® Stainless

Pilar features Delta's exclusive MagnaTite™ docking that keeps the spray wand securely in place when not in use.

Touch<sub>2</sub>O Technology enables you to turn the flow of water on or off with just a tap of your wrist or forearm. So when hands get messy, you can start the flow of water while minimizing cross-contamination.

# Kitchen Accessories

Sometimes accessories can make all the difference. That's why Delta® offers a variety of accessory items for the kitchen. If you're considering a multi-hole sink, also consider a vegetable spray or lotion/soap dispenser. And bar/prep faucets allow you to extend the look of the kitchen with a complementary faucet.

## Lotion/soap Dispenser

Create a stylish and coordinated look, eliminating the need to keep a bottle of liquid soap on the sink. Dispensers are refillable from the top and include a refill funnel. Available in coordinating styles for all kitchen series.

## Vegetable Sprayer

The ideal companion for busy kitchens. Available for Victorian®, The Michael Graves Collection,™ Waterfall®, Orleans®, Talbott,™ Signature®, Sincerity,™ and Classic Styles.

## Bar/prep Faucet

For coordinating bar or kitchen prep sinks. Available in the Allora®, Victorian, The Michael Graves Collection, Waterfall, Leland®, and Classic Collections.

## Kitchen Accessories

Finish the sink with style and dependable performance.

Lockwood™ TempAssure® 17T Series Custom Shower  
Shown in Aged Pewter

# Showers Collections

# MultiChoice® Universal

MultiChoice Universal provides a single rough that offers three function options and multiple style choices for unlimited design flexibility. With its universal application, the MultiChoice Universal Valve also streamlines installation. So when you're selecting shower options, you don't have to worry about the plumbing behind the wall. One rough does it all.

## Valve Body Rough

### Mounting Bracket

Provides a sturdy method to secure the valve to a stringer and prevents rocking.

### Square Plasterguard

The size of a standard tile allows for simple 90° cuts. Snaps into place with no tools required to remove.

### Three Connection Types

IPS, PEX and UNIVERSAL— Provide connection options for every type of piping.

### Heat-Resistant Pressure Test Cap

Allows for air or water testing before the valve cartridge is installed. Easy access for flushing out the system.

# Trim Options

## Single-Function Pressure Balanced Valve Cartridge

Functions with a single control for temperature only. Consistent temperature ( $\pm 3.6^\circ$ ) is achieved by balancing the pressure of both the hot and cold water.\* Offered for all Monitor® 13 and Monitor 14 Series Delta® brand tub/showers.

## Dual-Function Thermostatic Valve Cartridge

Our newest innovative valve cartridge for an enhanced shower experience. Keeps water temperature consistent ( $\pm 3.6^\circ$ ) by actually measuring and monitoring the temperature of the water and automatically adjusting the water mix to maintain a more precise water temperature. Allows the user to control the temperature and volume independently. Temperature can be set in order to remain consistent shower after shower. Offered for all TempAssure® 17T Series Delta brand tub/showers.
