Why KOHLER®?

People have been turning to Kohler for bathroom design for nearly 140 years. We've earned a reputation for innovative design and uncompromising quality. Our commitment to providing thoughtful solutions for the entire bathroom has established Kohler as a leader in bathroom grooming space design. With a broad offering of bathroom sinks and storage options, we help you combine products that work beautifully together in your home and make the best sense for you.

Smart & Stylish Grooming Spaces

We offer an extensive range of grooming space components – sinks, storage and mirrors – for every configuration. Simple to sophisticated. Traditional to contemporary. And, because all the variations can be a bit overwhelming, we walk you through what's what, so you can move quickly from understanding the basics to imagining new possibilities.

Considered Collections

Designing a grooming space becomes a one-step process with KOHLER collections. Our coordinating fixtures and faucets allow you to simply choose a style that complements your home. All the components are there for you to mix and match to meet your functional needs and design preferences, not only for your grooming space, but for the entire bath or powder room.

Bold. Artistic. Design.

If you're drawn to living spaces that are a little more unique, a little more daring, our Artist Editions® collection features handcrafted, functional works of art. In addition, the KOHLER color palette invites you to make vibrant, beautiful color the central focus of your bathroom design.

Smart & Stylish Grooming Spaces

A thoughtfully considered sink and storage area can make a bathroom incredibly functional and easy to use. As you design your space, you'll want to think about each component, how you use it and what options make the most sense for you and your home. For example, are you simply replacing a drop-in sink or are you starting from scratch? How much storage do you need? What about counter space? Whatever your needs and preferences, we can help you create an inviting space that offers great functionality.

Before You Choose a Bathroom Sink

As you design your bathroom and choose the style of your sink, there are several installation options you'll want to consider. We've outlined the differences here. Visit [KOHLER.com/BathroomSinks](https://www.kohler.com/BathroomSinks) for additional information.

Pedestal

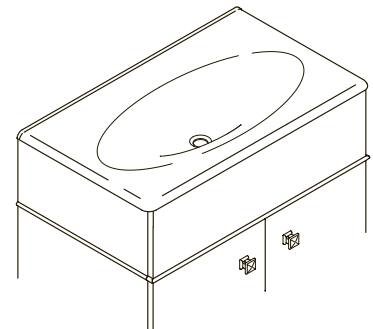

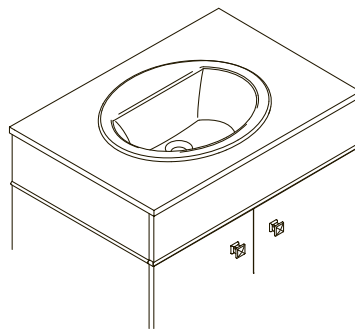

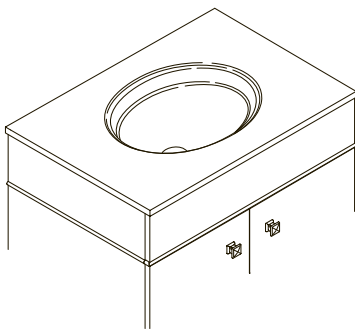

A stand-alone fixture, the pedestal sink features a generous basin available in multiple sizes and styles to complement other fixtures. These sinks offer a clean, distinctive look that works well in small bathrooms, making a small space feel more open.

Wall-Mount

These sinks attach to the wall and often include a shroud to cover piping. Convenient for small bathrooms, wall-mount sinks can make a small space appear larger.

Vessels and Wading Pool®

Vessels sinks are freestanding basins that rest on the counter and create a dramatic centerpiece for any bathroom. Wading Pool above-counter sinks accentuate the movement of water.

Under-Mount

These sinks mount beneath the counter to create a smooth counter-to-basin transition. Sleek style and ease of cleaning give this installation type its appeal.

Drop-In

Drop-in sinks have a rim or lip that sits on the counter while the basin rests below. Ideal for remodeling, drop-in sinks can be easily retrofitted to an existing counter.

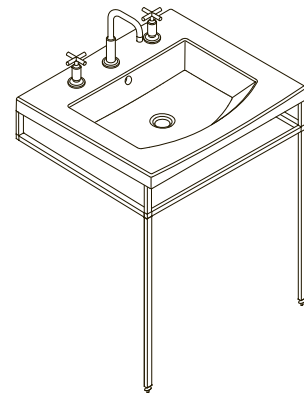

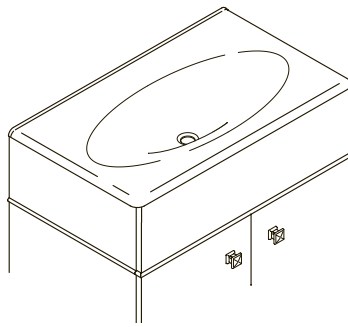

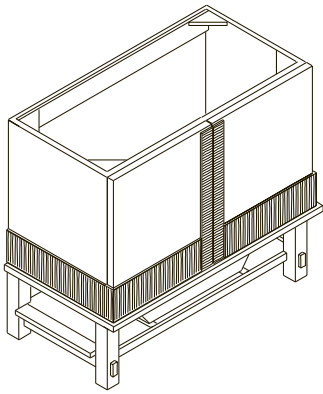

Vanity-Top

Designed to coordinate with KOHLER® vanities and console tables as well as industry-standard bathroom furniture, vanity-top sinks provide a one-piece counter and basin solution.

Before You Choose a Vanity

We offer a wide range of furniture solutions to fit the configuration of your bathroom, as well as your storage needs and design preferences. To help you get a sense of the available choices, we've listed the main features and options of each.

Vanities

Our vanities are available in multiple sizes. You may choose from petite vanities ideal for small spaces to full 48-inch vanities, with a range of sizes in between. In addition, modular collections can be configured into combinations from 24 to 84 inches. Several of our vanities feature the Express™ assembly system. Packed flat for easy transport, these vanities are affordable and quick to assemble and install.

Vanity-Top Sinks

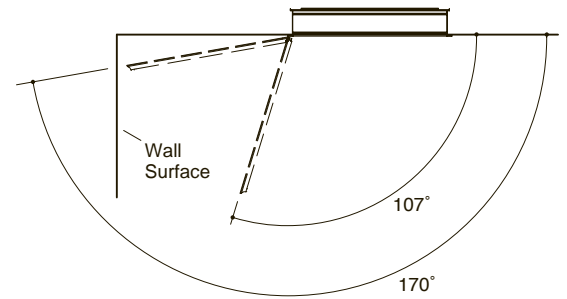

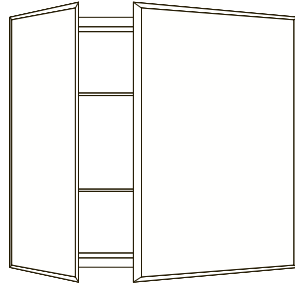

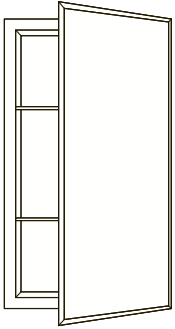

We offer vanity-top sinks in your choice of KOHLER® enameled cast iron, glass, vitreous china or fireclay. These one-piece counter and basin solutions are designed to coordinate seamlessly with KOHLER vanity and console table styles and sizes.

Console Tables

Console tables work well in bathrooms where extra storage isn't essential but sophisticated style is. Consider pairing a medicine cabinet with a console table for the best of both worlds. Designs range from clean and crisp to intricate and ornate.

Before You Choose a Medicine Cabinet or Mirror

KOHLER® mirrors and medicine cabinets are equally stylish, sophisticated and well-crafted. We've designed our medicine cabinets to help you reduce clutter in the grooming space and organize all of your essentials within easy reach. To help you decide on a mirror or medicine cabinet, we've listed several things you may want to consider as you make your decision.

Medicine Cabinets

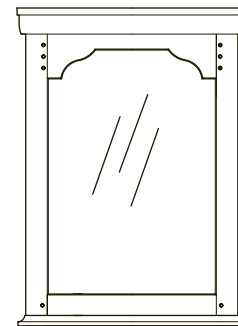

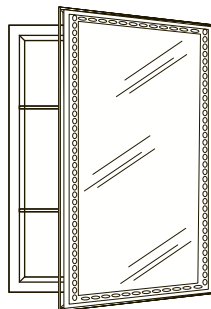

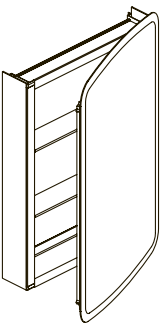

Bringing organized storage solutions to the bathroom, our medicine cabinets are roomy, available in multiple sizes and styles, and constructed of quality materials that last. Our medicine cabinets are ideal if it's important to have quick, easy access to your toiletries.

Range of Sizes

We offer a wide range of medicine cabinet sizes to meet your storage needs. In addition, select cabinets may be ganged together for installation in large bathrooms. Our offering includes double-door models as well.

Hinges

Durable and rust-resistant, our medicine cabinets are manufactured with either an adjustable self-closing 107°- or 170°-hinge option or an adjustable 110° hinge. All three allow the door to swing clear for ready accessibility.

Recessed or Surface-Mounted Framed or Frameless

Most of our medicine cabinets have two installation options. They can be recessed, with all but the door set into the wall, or mounted on the surface of the wall with a kit. You can choose the style of installation based on your needs and preferences.

KOHLER® medicine cabinets come in a variety of styles to match your personal design preference. You can choose from suite-coordinated framed cabinets to complement your fixtures, wood-framed cabinets or frameless cabinets.

Mirrors

Several of our vanities have coordinating mirrors with matching wood frames. In addition, select accessory collections feature line-matched mirrors. If you're set for storage and prefer a traditional look, a mirror may be the perfect choice.

Long Live Color

Color is back, in a big way. We're seeing bold colors in everything from fashion design to industrial design to interior design and more. To celebrate this revival of color, we've partnered with designer (and color fanatic) Jonathan Adler to expand the KOHLER color palette with four special edition colors: Piccadilly Yellow, Greenwich Green, Palermo Blue and Annapolis Navy, available on select bathroom sinks. See page 122 to view swatches of all four KOHLER colors featuring Jonathan Adler.

To give you a bit of inspiration, we had our designers put together a few recipe cards for bathroom designs, pairing KOHLER colors with finishes, tiles and wallpaper options.

Piccadilly Yellow

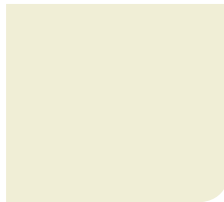

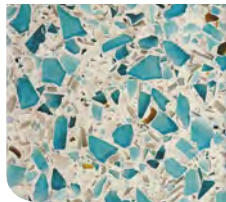

Highlight your bold Piccadilly Yellow sink by pairing it with muted neutrals. This soft color palette makes the sunny color of Piccadilly Yellow pop giving you a serene bathroom with an unexpected surprise resulting in pure giddiness.

For a mix of mod and eclectic styles in your bathroom, consider adding a dramatic wallpaper. The subtle gray hints in this eye-catching pattern are reflected in the Vibrant Polished Nickel hardware finish as well as the faint gray veining seen in the stone.

Finish - Vibrant® Brushed Bronze Wood - Seashell
Stone - Recycled Flint Glass Benjamin Moore® Paint – Pashmina, AF-100

Finish - Vibrant Polished Nickel Wood - Lily
Ann Sacks Stone – Calacatta Borghini Jonathan Adler Wallpaper – Syrie in Yellow and Grey

Palermo Blue

Recreate the feel of the Mediterranean with shades of bright blue contrasting against dark woods and clean white walls. Bring out the color of your Palermo Blue sink by accenting it with recycled blue glass countertop reminiscent of the sea itself.

A simple scene of understated elegance. This color palette bounces dark wood and white stone off the vivid Palermo Blue sink. Not to be overlooked, the light gray wallpaper adds an interesting element without taking attention away from the sink. It's a modern feel with a unique flare.

Timeless Tones

Our most popular neutrals work across a wide range of materials and finishes, becoming the foundation for just about any look or feel you want to create.

Dune

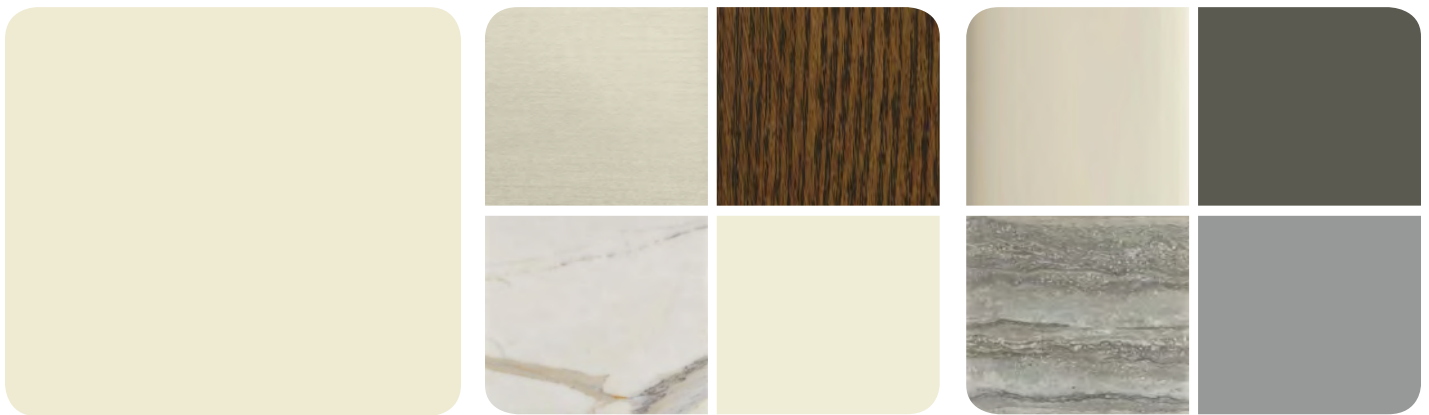

Recreate the calm tranquility of your favorite spa with the cool tones of Dune. Paired with muted shades of taupe and white, Dune takes on a casual elegance – a great palette to inspire relaxation.

If a retro vibe is what you're after, consider the strong patterns and rich textures of this Dune palette. The geometric mosaic and deep wood finish transform the bathroom into a smart modern retreat.

Provinity®

With glamour reminiscent of Hollywood's heyday, the Provinity vanity bridges the gap between formal elegance and modern playfulness. Crafted of European sycamore, Provinity puts a modern spin on the traditional Queen Anne leg, creating a striking combination of precise curves and confident, straight lines. Its single slow-close drawer provides generous storage space. The matching mirror adds a slightly whimsical twist.

Thistledown®

Early American furniture designers frequently worked with knotty pine, an American-grown wood known for its knots and unique grain. Thistledown builds on this rich tradition, dressing knotty pine up with a rich Sienna finish and fluted trim. A full-depth shelf and solid-wood dovetail drawer provide ample storage space.

Glossary of Terms

Console Table

An accompaniment to KOHLER® vanity-top sinks, console tables offer an open alternative to the cabinet style of vanities.

Drop-In

A sink type that features a rim or lip that rests on the counter when installed while the basin rests below.

Enamel

A powder coating applied to an iron casting. When exposed to high temperatures, the coating melts and bonds to the casting, creating a glass-like surface. The thickness of KOHLER enamel provides outstanding protection against chipping and scratching while offering deep color integrity.

Express™ Assembly System

A feature on select vanities that allows the product to be packed flat for easy transport and simplifies assembly and installation.

Glaze

A glossy, water-resistant, colored-finish surface that protects all nonporous vitreous china plumbing fixtures.

Metal-Frame Installation

An installation type that includes a metal frame mounted around the drop-in rim of a bathroom sink.

Pedestal Sink

A stand-alone fixture, the pedestal sink features a generous basin available in multiple sizes and styles to complement other fixtures.

Recessed

An installation option for medicine cabinets in which all but the door is set into the wall.

Shroud

Material that conceals the piping beneath a bathroom sink. Shrouds are included with many of our wall-mount sinks.

Single-Hole

One hole drilled in the center of a sink faucet ledge that provides for installation of a single-handle faucet.

Surface-Mounted

An installation option for medicine cabinets in which the cabinet rests on the surface of the wall. Surface-mounted medicine cabinets include an installation kit.

Under-Mount

A sink type in which the sink mounts beneath the counter to create a seamless counter-to-basin transition.

Vanity-Top

A sink type that fits snugly over the entire vanity or console table when installed and acts as both counter and basin.

Vessels Sink

A sink type that features a freestanding basin which rests on the counter when installed.

Vitreous China

A term applied to plumbing fixtures that are comprised of ceramic materials, fired at a high temperature to form a nonporous body with exposed surfaces and coated with ceramic glaze.

Wading Pool® Sink

An above-counter sink with a reduced basin depth that accentuates the movement of water.

Wall-Mount

A sink type that installs by attaching to the wall and often includes a shroud to help cover piping.

Wet Surface Sink

A sink housing a surface panel within its basin that creates a flat surface, allowing water to flow outward into the surrounding channel.
